1. Site Structure & URL Plan

Build the homepage broad (brand + category overview), and give each exam its own dedicated URL to avoid keyword overlap. Priority build order: Homepage → OSSSC Nursing Officer page → other exam pages.

Page	URL	Priority
Homepage	osssc.online/	1 (Build first)
OSSSC Nursing Officer	osssc.online/osssc-nursing-officer/	1 (Primary SEO asset)
AIIMS NORCET	osssc.online/aiims-norcet/	2
RRB Staff Nurse	osssc.online/rrb-staff-nurse/	2
ESIC Nursing Officer	osssc.online/esic-nursing-officer/	3
JIPMER Nursing Officer	osssc.online/jipmer-nursing-officer/	3
Indian Army BSc Nursing	osssc.online/indian-army-bsc-nursing/	3

Slug notes: use "rrb-staff-nurse" (not "rrb-nursing-officer") and "aiims-norcet" (not "aiims-nursing-officer") — these match actual candidate search behavior more closely.

H2: Why This Is Odisha's Biggest Nursing Exam Opportunity

With 5,989 vacancies spread across all 30 districts, this notification offers significantly better odds than most national-level nursing exams like AIIMS NORCET or RRB Staff Nurse, where seat counts are much lower relative to applicant volume. 5. Technical SEO & Implementation Notes

Schema Markup

- Add **FAQPage** schema to every page's FAQ section (homepage + all exam pages)
- Add **Organization** schema to the homepage (name, logo, sameAs social links)
- Consider **Course** or **Quiz** schema for individual test series pages, if applicable

Internal Linking

- Homepage links out to every exam page
- Each exam page cross-links to 1-2 related exams (e.g., "Also preparing for RRB Staff Nurse? Check our mock test series →")
- OSSSC Nursing Officer page should NOT be diluted by too many outbound links — keep it focused as the primary conversion page

On-Page SEO Checklist

- One H1 per page only
- Alt text for all images (e.g., "OSSSC nursing officer mock test dashboard", not "screenshot1.png")
- Meta title under 60 characters, meta description under 160 characters for every page
- Mobile-friendly, lightweight test-taking interface — Google penalizes slow mock-test pages
- "Last updated: [date]" marker visible near time-sensitive notification/eligibility content

Local SEO

Since the platform targets Odisha specifically, set up a Google Business Profile and naturally mention district names (e.g., Bhubaneswar, Cuttack, Berhampur) within body content — not just headings — to strengthen local relevance.

Content Governance

- Verify all exam-specific facts (vacancy count, dates, exam pattern, cut-offs) against the official notification/website before publishing
- Re-check the OSSSC application deadline (13 July 2026 per most sources, some show earlier sub-dates) on osssc.gov.in before go-live
- Replace all testimonial/stats placeholders with real data once available — do not publish fabricated numbers
